

**QUESTIONS AND RESPONSES**

**Numbers 28-32**

28. The SAR references several West Valley procedures. Will the Government provide current site procedures as reference documents?

**Answer:** The Government will consider posting site procedures, however Offerors must specify which procedures they would like to be posted. Once a specific procedure request is received the Government will review the request and provide the procedures deemed releasable.

29. Will DOE please provide copies of any approved or submitted Categorical Exclusions for the West Valley Site pertinent to the execution of the PWS for this contract and place them on the Reference Documents section of the solicitation website?

**Answer:** The Categorical Exclusions pertinent to the execution of the PWS for this solicitation have been posted on the WVDP SEB web page under the Reference Documents at the Environmental link.

30. Will DOE please provide copies of the current WVDP contract with WV Nuclear Services Company and copies of any contract modifications and place them on the Reference Documents section of the solicitation website?

**Answer:** The current West Valley Nuclear Services Company (WVNSCO) contract and modifications incorporating changes to the terms and conditions have been posted on the WVDP SEB web page under the Reference Documents section at the Contracts link.

31. For the purpose of the proposal and proposal cost and schedule development, are the Offerors to assume that all required NEPA documentation is in place and approved by DOE to allow for the removal of the Balance of the Site Facilities as listed in Attachment C-3?

**Answer:** For the purpose of the proposal and the proposal cost and schedule development, the Offerors are to assume that the required NEPA documentation is in place and approved by DOE to allow for the removal of Balance of Site Facilities as listed in Attachment C-3.

## **SOLICITATION DE-RP30-06CC30000**

32. Attachment C-3 does not provide details to determine whether partial or full radiological characterization has been performed for each facility listed. In Attachment C-3, Contract Starting Point, please add information indicating where DOE considers facilities to be already fully or partially characterized.

**Answer:** The government will not update table C-3 to indicate the characterization status of each facility. However, characterization data for facilities which have undergone characterization activities is available by referring to the Radioisotope Inventory Reports already posted on the web site or FedTeDS.
